

**REMARKS**

In reply to the requirement set forth in the Action the applicants elect the combination of styrene and acrylonitrile as the "vinyl monomer", aromatic polycarbonate as the "resin", and butadiene as a "species of rubber". The election is without traverse.

All the claims read on the elected specie.

Believing the above represent a complete response to the Office Action applicants request an early examination on the merits.

Respectfully submitted,

By   
James R. Franks  
Agent for Applicants
